If you're already registered with us but have never set up an online bookings account our system will automatically send you an online registration e-mail when you enter your personal details. Otherwise, register all of your child's details and then select 'Book Now' once complete.

Returning Users – If the child you are booking for is linked to you on our system you can simply select their name from your own online booking account. Alternatively you will be able to activate their account by selecting the forgotten password link. If you are registering more than 1 child under the same e-mail address, please choose a unique password for each family member.
