

PERSONAL TRAINER PROFILE

About Me

I have always had a keen interest in sport and fitness and played Rugby from an early age. I furthered my interest by studying HNC Sports Coaching with Development of Sport at College and have worked in the Fitness Industry ever since. I have worked with North Lanarkshire Leisure for over 9 years and have been a fully qualified Personal Trainer for over 6 years. Throughout my career, I have helped and supported many gym members and PT clients to achieve their personal fitness goals and assisted them in maintaining a more healthy and active lifestyle. I continually seek to improve my knowledge and skills within the industry by keeping up to date with current trends in training techniques.

CRAIG

Qualifications

- HNC Sports Coaching with Development of Sport
